

THER-BIOTIC® and Microbiome Support Formulas†

From infants to seniors and every stage of life in between, our products can help restore and support every microbiome.†

Dose Form Key:

Chewable Tablets

Delayed Release Capsules

Capsules

Powder

Category	Comprehensive Formulas		Women		Baby Kids		Gut-Brain Axis	Targeted Support				Longevity		Yeast Spore		Prebiotic			Postbiotic	
Product Name	Ther-Biotic® Complete	Ther-Biotic® Synbiotic	Ther-Biotic® Women's	Ther-Biotic® Target b ² ™	Ther-Biotic® Baby (Powder)	Ther-Biotic® Kid's (Chewable)	Ther-Biotic® Target gb-X™	Ther-Biotic® Metabolic Formula	Ther-Biotic® Leaky Gut	Ther-Biotic® Factor 1	Ther-Biotic® Pro-5®	Ther-Biotic® Senior Formula	Ther-Biotic® Bifido	Ther-Biotic® <i>Saccharomyces boulardii</i>	Ther-Biotic® BioSpora™	Ther-Biotic® BiotaGen	Galactomune®	GastroThera™	Ther-Biotic® Immuno Mushroom™	Ther-Biotic® Postbiotic
General Use																				
	Comprehensive GI Microbiome Support†	Healthy Digestion, Respiratory Function, and Immune Health†	Probiotics Formulated for Women's Specific Needs†	Breast Health, Lactation, and Immunity Support†	GI and Immune Support†	GI, Immune, and Oral Health Support†	Gut-Brain Axis and Healthy Mood Support†	Supports Healthy Metabolism†	Gut Barrier Function Support†	Immune Support†	GI Health†	GI, Immune, and Health Aging Support†	GI, Immune, Transit Time, Abdominal Comfort Support†	Probiotic Yeast to Support Healthy Intestinal Microflora and GI Function†	Long Lasting GI and Immune Support†	Prebiotic Formula to Feed the Microbiota and Support Regularity†	Prebiotics for Immune Health†	GI and Immune Support†	Functional Organic Mushrooms for Year-Round Immune Support†	GI and Immune Support†
Benefits	<ul style="list-style-type: none">• 12-strain blend for broad-spectrum microbiome support.†• Short chain fatty acid production that nourishes enterocytes.†• Supports innate and acquired immunity.†• Support for intestinal epithelial barrier integrity.†• May support normal inflammation response, when inflammation is associated with occasional digestive discomfort.†• InTactic® technology for maximum viability throughout the intestinal tract.	<ul style="list-style-type: none">• Best suited for:<ul style="list-style-type: none">• † Individuals seeking a convenient, comprehensive probiotic.†• † Adults who require enhanced healthy GI function support.†• † Anyone wanting to optimize their immune function.†• † Travelers looking for a healthy boost away from home.†• † Entourage benefits through combining pre- and probiotics into one convenient formula.†• Includes seven probiotic strains selected for their supportive roles in holistic GI, respiratory, and immune health.†	<ul style="list-style-type: none">• Helps restore and maintain healthy vaginal microbiota balance.†• Supports a healthy acidic vaginal pH.†• Promotes healthy bacterial and yeast balance.†• Supports mucosal immune response.†• May reduce occasional vaginal itching, discharge, or discomfort.†• May support odor reduction and vaginal comfort.†• 10 clinically studied probiotic species.• InTactic® technology for maximum viability throughout the intestinal tract.	<ul style="list-style-type: none">• Supports lactation comfort and infant immune health through breastfeeding and nursing.†• Clinically demonstrated to provide a safe and effective approach to lactation discomforts.†• Safe and well tolerated in both adults and infants.†	<ul style="list-style-type: none">• Designed to safely meet the metabolic, intestinal, and immune support needs of infants, and young children.†• Supports a normal infant microbiota that can be easily disrupted by cesarean section delivery, formula feedings, environmental exposures, or maternal diet.†• Safe gastrointestinal, metabolic, and immune support.†• Helps ease occasional fussiness and gassiness.†• Can be mixed with breast milk, formula or food.	<ul style="list-style-type: none">• Supports healthy intestinal permeability, skin health, and immune function.†• Broad spectrum gastrointestinal and immune support.†• Helps ease occasional tummy troubles - constipation, diarrhea, and abdominal discomfort.†• Great tasting natural cherry flavor.	<ul style="list-style-type: none">• Clinically shown to decrease overall cognitive reactivity to mood and stress.• Powered by Ecologic® BARRIER to:<ul style="list-style-type: none">• † Support the gut barrier function.†• † Support healthy cytokine response.†• † Produce potentially neurosupportive metabolites.†• † Support HPA regulation.†	<ul style="list-style-type: none">• Supports healthy metabolism and weight management.†• Supports healthy energy balance and glucose metabolism.†• Designed to increase intestinal diversity.†• InTactic® technology for maximum viability throughout the intestinal tract.	<ul style="list-style-type: none">• Supports healthy digestion and stool formation.†• Helps improve and maintain a healthy gut integrity.†• High-potency blend containing a total of 6 Lactobacillus and Bifidobacterium species.• Designed for those who are at risk for occasional diarrhea and compromised gut barrier function.†• InTactic® technology for maximum viability throughout the intestinal tract.	<ul style="list-style-type: none">• An extensively researched species, <i>L. rhamnosus</i> has been recognized for robust L(+) lactic acid production, digestive, and immune support.†• Works together to effectively increase colonization of the microorganisms in both the small intestine and the colon.†• Provides both colonizing probiotic species and two transient species that compete with nonbeneficial bacteria and yeast which work together to effectively increase colonization of the microorganisms in both the small intestine and the colon.†• All 5 species have a high tolerance to stomach acid and bile, which is important for maintaining viability in the intestinal environment.	<ul style="list-style-type: none">• Designed for individuals who need a high degree of support to build and balance beneficial intestinal microbiota.†• Works together to effectively increase colonization of the microorganisms in both the small intestine and the colon.†• Provides both colonizing probiotic species and two transient species that compete with nonbeneficial bacteria and yeast which work together to effectively increase colonization of the microorganisms in both the small intestine and the colon.†• All 5 species have a high tolerance to stomach acid and bile, which is important for maintaining viability in the intestinal environment.	<ul style="list-style-type: none">• Supports a balanced and diverse microbiota, normal gastrointestinal, and immune function for individuals over 60.†• Provides substantial amounts of Bifidobacterium species, known to decline with age.• InTactic® technology for maximum viability throughout the intestinal tract.	<ul style="list-style-type: none">• Concentrated Bifidobacterium formulation.• Supports Gastrointestinal wellbeing.†• Positive impact on GI transit time.†• Supports the production of short-chain fatty acids (SCFAs).†• InTactic® technology for maximum viability throughout the intestinal tract.	<ul style="list-style-type: none">• Assists individuals with occasional diarrhea.†• Supports healthy inflammatory response, where inflammation is associated with occasional digestive discomfort.†• Supports gastrointestinal health when traveling.†	<ul style="list-style-type: none">• Enhanced support for healthy GI and immune system development and function.†• Optimizes gastrointestinal health.†• Spore-forming probiotics such as Bacillus are vital to the food chain as they have the intrinsic ability to produce a multitude of enzymes, secretory proteins, vitamins, and carotenoids.	<ul style="list-style-type: none">• THER-BIOTIC® BiotaGen works synergistically with probiotics to ensure intestinal microbiota balance.†• Promotes normal colon transit times while enhancing the absorption of calcium and magnesium.†• Supports gut mucosal barrier and immune function by regulating intestinal epithelial cell growth and increasing populations of butyrate-producing species.†• Good source of fiber.	<ul style="list-style-type: none">• Provides Galacto-oligosaccharides and beta-glucan that work together to augment body defenses, support immune responses, and support adaptive immune function.†• Galactooligosaccharides favorably shift the balance of gut microbiota towards more beneficial species.†• Beta-glucan supports innate immunity and supports healthy immune responses.†• Viable alternative to chicory-derived inulin-type fructans for sensitive individuals of all age groups.• May support a healthy mood and the actions of psychobiotics such as THER-BIOTIC® Target gb-X™.	<ul style="list-style-type: none">• Powerful support for your entire GI tract and gut microbiota with a blend of supporting nutrients, prebiotics, and glutamine.†• Addresses energy requirements of the intestinal mucosa, structural composition of intestinal and colonic cells, microorganism balance, and production of protective intestinal mucus secretions.†• N-Acetyl-D-Glucosamine helps form intestinal mucous secretions that protect intestinal tissues and help food pass through the GI tract.†• Contains soluble prebiotic fibers that support the growth of beneficial GI bacteria, assist in water absorption, and support colonic cell function.†	<ul style="list-style-type: none">• Concentrated mushroom extracts and green tea extract to support immune system health.†• Made with 100% organic functional mushrooms including Shiitake, Cordyceps, Blazeli, Turkey Tail, Reishi, and Maitake plus green tea extract.• This powerful combination supports your natural immune function with the power of beta-glucans, digestive enzymes, prebiotics, antioxidants, and other important nutrients.†	<ul style="list-style-type: none">• Postbiotic immune support.† Powered by EPICOR®.• Clinically demonstrated to support healthy immune function and inflammatory response.†• Supports first-line immune defense and overall immune health.†• Helps maintain nasal and upper respiratory health.†• Supports a healthy gut microbiome.†
