## FROM SEED TO SUPPLEMENT

The Gaia Herbs® nearly 270-acre Regenerative Organic Certified® farm in Brevard, North Carolina grounds an integrative approach to herbal wellness. By cultivating and sourcing herbs with intention and overseeing every step in the process, we deliver herbal formulas with the integrity practitioners expect, supporting confident, consistent patient care.

## EVIDENCE & BACKGROUND

ImmunoRenew AI is designed to support patients' calm, steady, and resilient immune systems.\* Many individuals' normal physiology includes an immune system that is more responsive to common environmental stimulators and can be supported through botanicals that support a healthy stress response, clear immune communication, and oxidative balance.\* ImmunoRenew AI centers on astragalus, a botanical used to support healthy immune T and regulatory cell function in response to stressors.\* It is also traditionally used in Traditional Chinese Herbalism to support qi or energy.\* This formula is focused on individuals who feel depleted yet reactive and overall undernourished by life; rather than simply stimulating the body, this formula is valued for supporting the immune system particularly during times of physical stress through efficient immune activation and support for a calm and collected response.\* This product also features several herbs known for their antioxidant features to support overall healthy immune function by neutralizing reactive oxidative species.\*

## COMPLEMENTARY FORMULAS

## FEATURED INGREDIENTS

**Astragalus root** (*Astragalus membranaceus*): Astragalus is traditionally used in Chinese herbalism to support the vitality of the immune system.\*<sup>1</sup> In addition, the polysaccharides found in Astragalus are known for their immune supporting properties.\* Preliminary clinical research suggests Astragalus may also support immune function by supporting healthy immune T and regulatory cell function in response to stressors.\*<sup>2,3</sup>

**Rehmannia root** (*Rehmannia glutinosa*): Rehmannia is an herb used widely in East Asian traditional herbal systems to support health.\* Various iridoid glycosides have been identified as potential phytochemicals worthy of further study in supporting healthy immune function.\*<sup>4</sup>

**Stinging Nettle seed extract** (*Urtica dioica*): Extracted fresh from Gaia Herbs® Regenerative Organic Certified® farm, the seeds of stinging nettle contain saturated and unsaturated fatty acids, carotenoids (lutein and violaxanthin) and β-carotene.<sup>5</sup> The nettle seed is a supportive nutritive in the background of this formula.\*

**Schisandra berry** (*Schisandra chinensis*): Schisandra is an adaptogenic berry from East Asian traditional herbal practices. Gaia Herbs PRO® utilizes Fair Wild® schisandra berries to ensure respect for the ecosystem and parity for the wildcrafters that make this herb available.<sup>6</sup>
